COMING SOON

# SIGG TRAVELLER MyPlanet

COMING  
JULY 2022

## NATURAL CONVENIENCE

Top based on renewable raw material such as cellulose  
Contributing to the reduction of the use of fossil material  
Easy to transport - can be conveniently carried with one finger only

## LEAK PROOF

Safe transportation in bag or backpack  
No leaking - both in horizontal and upside-down position  
Leak-proof even with carbonated beverages

## OFFSETTING CARBON FOOTPRINT

Already after the 5th use bottles made of recycled aluminum have a better CO<sub>2</sub> balance than PET bottles\*

By buying one SIGG bottle you save 1500\*\* PET bottles

Our Traveller MyPlanet bottle is carbon neutral\*\*\*

- \* Calculated for an 'average product'
- \*\* Calculation based on the assumption that the Traveller MyPlanet water bottle is used on average 3 times a week and remains in use for 10 years
- \*\*\* Offsetting all unavoidable CO<sub>2</sub> emissions from the Traveller MyPlanet Bottle by supporting climate action projects. As a result of this, the Traveller MyPlanet drinking bottle is certified carbon neutral

## SAFE AND SUSTAINABLE

100% recycled post-consumer material was used in the production of this aluminium bottle body

Free from BPA and harmful chemicals, such as oestrogen-mimicking substances and phthalates

Use and re-use for many years

Aluminium has excellent recycling properties and can be recycled practically indefinitely without any loss of quality

Perfect alternative to single-use plastic bottles

## SWISS MADE

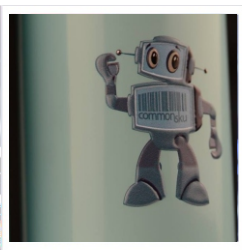

More than 110 years of expert craftsmanship  
Produced in Switzerland

Swiss Design and Engineering

Extreme resilience – light, robust and durable - this results in an excellent weight-to-strength ratio

No visible welding seams - made from a single piece of high-quality, 100% recycled aluminium
