# TABLE OF CONTENTS

# CRAFT A CUSTOM PIECE

Launching a new product or medicine?  
Consider embedding the tablet or pill capsule to create a commemorative piece to celebrate your team's achievements.

Custom block with plain edge | BL445  
Digital printing | Pill capsule embedment

The square block allows for an extra form of personalization by laser engraving a message on one or more of the four edges.

# Showcase your product

Custom block | BL445

Digital printing | Pill capsule embedment

# DISPLAY YOUR DISCOVERY

Whether you made noticeable improvements to a clinical process or started a new phase in your clinical trials, highlight your product by embedding a vial with your medicine in a Lucite piece.

**Custom circular column | CLM**  
Embedded vial | Full colour print on slanted face

**Custom square column | CLM**  
Solid coloured bottom | Embedded vial | Engraved surface with colourfill

**Custom column | CLM**  
Custom colour tinted bottom | Full colour embedded imprint | Laser engraving

# Embed the real deal

Custom circular column | CLM  
Embedded vial | Full colour digital print on surface

Packets  
available in:  
75 mg  
300 mg

**PROCYSBI**<sup>®</sup>  
(cysteamine bitartrate)  
delayed-release capsules  
delayed-release oral granules

# Show, don't tell

Create a unique sales tool by displaying small or fragile items encapsulated in Lucite. It's an excellent opportunity to grab people's attention and protect your products.
